1. Introduction to The Management Edge, Inc.

The Management Edge, Inc. is a full-service Organization Development consulting firm with a seventeen-year history delivering exceptional services to a diverse clientele in government and the private sector. We are a certified 8a SDB Woman Owned Small Business and offer a cadre of exceptionally qualified Consulting Associates in locations across the country.

The Management Edge, Inc. Professional services include: Partnering & Alliance Building, Team Building, Facilitation Services, Professional Training & Development, Management Systems & Analysis, Alternative Dispute Resolution (ADR), and Project Management & Integration Assessment & Training.

Our firm specializes in inter-organizational partnering and the building of high-function teams. Our clients use us to make multi-company, multi-agency ventures and collaborations work more productively. This enables the creation of true partnerships and allows them to overcome culture clashes in newly-merging or acquired companies and newly-reorganized agencies, and to generate more effective collaborations with suppliers, contractors, regulatory agencies and others. Our clients span the gamut of industries with a heavy concentration in the defense sector. For example, we are the acknowledged leaders in interagency partnering for environmental clean-up within the U.S. Department of Defense.

2. Professional Services Offered

SIN 874-1, 874-1 RC INTEGRATED CONSULTING SERVICES

Contractors shall provide expert advice and assistance in support of an agency's mission-oriented business functions. Services covered by this SIN include: Management or strategy consulting, including research, evaluations, studies, analyses, scenarios/simulations, reports, business policy and regulation development assistance, strategy formulation, and expert witness services

- * Facilitation and related decision support services

- * Survey services, using a variety of methodologies, including survey planning, design, and development; survey administration; data validation and analysis; reporting, and stakeholder briefings

TME builds from its core competence in personal and organizational development to provide consulting to address a variety of governmental management needs, including: Strategic, Business, and Action Planning, development of High Performing Work Teams, Leadership Development, Process Improvement, and Program Assessment Audit and Evaluation.

FACILITATION SERVICES

Work groups, teams, taskforces, and committees have become a dominant way of doing business in the government. TME specializes in helping to create these groups, applying insights and tools from Organization Development to facilitate and optimize group function. TME offers both a standard methodology for group facilitation and consulting to diagnose and help resolve difficult group process issues. TME can also manage all aspects of meeting logistics, including facilities, A/V, agendas, registrations, breakouts, and proceedings. Whether the need is for one-time technical facilitation of a meeting, training to support self-facilitation, or ongoing active process facilitation of a work group, TME is an ideal choice.

SIN 874-4, 874-4 RC TRAINING SERVICES; INSTRUCTOR LED TRAINING, WEB-BASED TRAINING AND EDUCATION COURSES, COURSE DEVELOPMENT AND TEST ADMINISTRATION, LEARNING MANAGEMENT, INTERNSHIPS

TME offers a variety of training courses and seminars designed to enable and to enhance organization development and management improvement processes for client agencies, companies, and other organizations. TME's consultants are excellent educators, with in-depth knowledge of the subjects they teach. TME can offer its courses on a completely off-the-shelf basis. However, clients usually gain the greatest cost-benefit by working with TME to customize the course specifically for their own circumstances. TME courses are not offered against a set schedule. Whether customized or not, they are usually ordered by a specific client or group of clients for delivery at a time of the client's choosing.

SIN 874-6, 874-6 RC ACQUISITION MANAGEMENT SUPPORT

When privatization initiatives run into trouble or fail outright, it is seldom because of inadequate financial analysis or an inadequate contracting mechanism. As often as not, privatization fails to

meet expectations because not enough attention has been paid to helping former federal employees understand and accommodate to the realities of private-sector employment, and to sensitizing and training managers and supervisors who must oversee these employees and their programs. TME focuses on the human side of privatization, working with client agencies and/or private firms to assess the mindset and culture of an organization to be privatized in order to determine the level of risk associated with the initiative and interventions that are appropriate to address this risk.

TME provides a range of assessments and interventions to help make the privatization process more effective: **Strategic Assessment** – To help decision-makers decide if privatization will be worth the costs (monetary and otherwise).

Tactical Assessment To evaluate the privatizing organization and the capabilities and culture of the acquiring organization in order to fashion a suitable intervention on one or both sides.

Operational Assessment To troubleshoot an operation that has been privatized but which is not meeting expectations. Such an assessment is a way to determine whether human factors are impeding the process, and if so, what steps might be taken to create success.

Interventions Employee Orientation, Group Transition Coaching, Individualized Coaching, and Change Management Coaching.

SIN 874-7, 874-7 RC - INTERGRATED BUSINESS PROGRAM SUPPORT SERVICES

Even the best and most sophisticated program and project management systems cannot overcome poor interpersonal skills, poor communications, interpersonal biases, or inter-organizational conflicts. As a result, The Management Edge, Inc., focuses instead on the human interactions underlying effective program integration and project management. TME consultants operate on at least two different levels in dealing with Program and Project Management Issues:

Organizational Assessment TME consultants work with management to evaluate overall structure, organization, and systems, as well as assessing personality types, organizational culture and mores, attitudes, and interpersonal conflicts. **Individual Coaching and Development** TME consultants work directly with staff to optimize personal effectiveness through training and coaching in Time and Priority Management, Influencing Techniques, Applied Problem-Solving, etc.
